

about kotra

KOTRA, initially the Korea Trade Promotion Corporation, is established in 1962 as a national trade promotion organization. Since then, it has successfully facilitated Korea's rapid export-led economic development through various trade promotion activities such as overseas market surveys and business matchmaking.

In August 1995, cross-border investment promotion and support for technological and industrial cooperation projects was added to KOTRA's mandate, and it was renamed the Korea Trade-Investment Promotion Agency(KOTRA). KOTRA currently operates Invest KOREA, the national investment promotion agency, to promote inbound foreign direct investment (FDI).

KOTRA is now well-equipped to pursue its twin mandates of trade and investment promotion to enhance national prosperity and competitiveness, with the ultimate goal of positioning Korea as the business and economic hub of Northeast Asia. With its long-term experience and expertise, KOTRA serves and assists all interested parties worldwide to do business with Korea.

KOTRA has an extensive worldwide network of 126 branch offices in 86 countries as of 2016.

In the long run, KOTRA's well-trained trade and investment manpower, armed with relevant theoretical and practical knowledge, will bolster the nation's trade and investment infrastructure.
